

two decades of history, many more to come

Duarte Galvão, Michel Succar (CERN)

JACoW Team Meeting 2024

The screenshot shows the Indico web interface. At the top, there's a navigation bar with links for 'Home', 'Create event', 'Room booking', and 'My profile'. Below this is a search bar with placeholder text 'Enter your search term' and a 'Create event' button. The main content area is titled 'Main categories' and displays a list of categories with their event counts:

Category	Events
CERN-Related Clubs, Associations and Forums	9,256 events
Committees	12,044 events
Conferences, Workshops and Events	10,460 events
Departments	116,959 events
Directorate	507 events
Experiments	856,409 events
Global Indico	10,523 events
Outreach	2,395 events
Projects	74,220 events
Schools, Seminars and Courses	12,030 events
TEST Category	69 events

To the right, there's a 'News' section with three items:

- Indico 3.3 (Posted 5 Dec 2023)
- Adding Images to minutes (Posted 29 Aug 2023)
- Indico 3.2 (Posted 19 Jun 2023)

Below the news is an 'Upcoming events' section listing several workshops and conferences:

- Data Science Applications in Physics, Balkan ... (reaching until Friday)
- 10th MEFT Workshop (starts Tomorrow)
- 4th MeV2GeV Workshop (starts Tomorrow)
- Statnett Veit and official signing of MoC (starts Monday)
- 50 years of QCD (starts 31 Jan 2024)
- US Particle Physics for the Next Ten Years (starts 2 Feb 2024)

At the bottom left, there's a CERN logo and the text 'Powered by Indico v3.3 pro'. At the bottom center, there are links for 'Help', 'Contact', 'Terms and conditions', 'URL Shortener', and 'Privacy'.

About CDS Agenda

THE Meeting Manager tool (**CDS Agenda**) allows you to create, modify and store agendas of meetings, conferences or workshops together with all the documents (transparencies, minutes, pictures...) associated with them.

The CDS Software suite is free software, licensed under [GNU General Public Licence \(GPL\)](#). It is provided in the hope that it will be useful, but without any warranty. Please read also our [support](#) pages.

The CDS Agenda Software was initially developed in 1999 by the CDS team on a request by the [ATLAS](#) experiment. The initial software was greatly improved in the following years thanks to the comments and feedback from its users.

Latest Version

[CDS Agenda v4.2.9](#) (October, 18th 2004)

Maintained by cds.support@cern.ch group.

Adoption at CERN

The 18th International Conference on Strangeness in Quark Matter (SQM 2019) was held from June 10-15, 2019, in Bari, Italy. The website features a header with the conference logo and a photo of the Bari waterfront. The sidebar includes links for Overview, SQM 2019 main website, Timetable, Overall layout, Call for Abstracts, Contribution List, Book of Abstracts, Registration, Fee payment, Participant List, Conference info (with a link to sqm2019.bna.infn.it), and a Conference file section. The registration form shows fields for Personal Data, including Title, First Name, Last Name, Email Address, Affiliation (CERN), Country (Portugal), Member of the Italian Physical Society (IFIS) (no), and Address.

EVENTS BY YEAR

FCC-hh physics analysis meeting (Future Circular Collider) on Thursday 29 Nov 2018, 16:00 → 18:00 Europe/Zurich at CERN. The agenda includes:

- 16:00 → 16:10 Introduction: Speakers: Filip Moortgat (CERN), Heather Gray (IHEP). [FCC_intro_Nov29.pdf](#)
- 16:10 → 17:00 Update on tqq constraints from single top production: Speaker: Lev Dudko (M.V. Lomonosov Moscow State University (RUS)). [2018-11-29-FCC_FCC...](#)
- 17:00 → 17:30 Update on HH-4b: Speakers: Ana Carvalho (Universidade de Lisboa (PT)), Ricardo Jose Morais Silva Goncalo (LIP Laboratorio de Instrumentacao e Fisica Experimental de Part.). [FCPhysics_HHbb...](#)
- 17:30 → 17:50 Update of HH-4b4l: Speaker: Elisa Fontanelli (Università e INFN, Bologna (IT)). [FCC-HH meeting \(29-11-2018\)_...](#)

Rucio Development Meeting (RUCIO) on Thursday 18 Feb 2021, 15:00 → 16:00 Europe/Zurich. The agenda includes:

- 15:00 → 15:10 News:
 - Two releases this week
 - # 1.24.3 post1
 - # 1.24.4
 - Release schedule
 - # 1.24.5 Feb-22
 - # 1.23.13 LTS Feb-22
 - # 1.23.14 LTS Feb-22
 - Code Freeze from Feb-24
 - # 1.25.0 v1 Feb-25
 - # 1.25.0 Mar-1 ... Mar-5

Hot desking

The screenshot shows the indigo@Burotel interface for managing hot desking. On the left, a list of available desks is displayed across four categories:

- 15**:
 - 15/R-014**: 15/R-014 - Desk 4 LHCb (LHCb)
Status: Available (green)
- 15/R-016**:
 - 15/R-016 - Desk 2 LHCb (LHCb)
Status: Available (green)
 - 15/R-016 - Desk 4 LHCb (LHCb)
Status: Available (green)
- 15/R-022**:
 - 15/R-022 - Desk 2 LHCb (LHCb)
Status: Available (green)
- 15/R-024**:
 - 15/R-024 - Desk 2 LHCb (LHCb)
Status: Available (green)

At the top, there are navigation tabs: Burotel, Book a Desk, List of Spaces, and Bookings. Below the tabs are filters for Date (Daily, Thu 1 Feb - Thu 8 Feb), Location, Building, Equipment, Experiment, and a search bar. A summary bar shows:
Total: 591 | Available: 86 | Unavailable: 53 | Unauthorized: 454

On the right, a map of the CERN site displays the locations of the desks. Red circles with numbers indicate the count of available desks in specific buildings or areas. Labels include: 653, 20, 8, 17, 42, v2, and v3. A legend indicates "Show only rooms in this area". The map also includes a "Select area" dropdown and credits to Leaflet and OpenStreetMap contributors.

Themes / Customization

The screenshot shows the Indico web interface for the International Linear Collider (ILC) Agenda. The top navigation bar includes links for Home, Create event, and a search bar. The main content area displays 'Main categories' with a list of event types and their counts:

Category	Events
ILC International Development Team	502 events
Machine Design	2,157 events
Physics and Detectors	4,154 events
Conference and Workshops	119 events
Institutions	1,172 events
Linear Collider Collaboration	177 events
Test Area	101 events

To the right, there is a 'News' sidebar with three entries:

- Indico 3.3 (Posted 21 Dec 2023)
- Indico 3.2 (Posted 22 Jun 2022)
- Indico 3.1 (Posted 6 Jan 2022)

At the bottom, the footer includes the Indico logo and links for Help and Contact.

Themes / Customization

The screenshot shows a meeting agenda for the FCC-hh physics analysis meeting at CERN on Thursday, November 29, 2018, from 16:00 to 18:00 Europe/Zurich. The agenda includes four sessions:

- 16:00 → 16:10 Introduction**
Speakers: Filip Moortgat (CERN), Heather Gray (LBNL)
File: FCC_intro_Nov29.pdf
- 16:10 → 17:00 Update on tqq constraints from single top production**

Themes / Customization

The screenshot shows a web browser displaying the Higgs 2020 conference website. The header includes a navigation bar with icons for back, forward, search, and refresh, along with session status (Public), location (Europe/Rome), and user (P. Ferreira). The main banner features a large gold 'H' and the text 'HIGGS 2020' over a background of a particle collision event. The banner also displays 'Online conference' and 'October 26-30'. Below the banner, the text 'Higgs 2020' and '26-30 October 2020' is shown, along with a note about the event being online due to Covid-19. A sidebar on the left lists navigation links: Overview, Call for Abstracts, Timetable, Registration, Session conveners, Participant List, Contribution List, Special event, Bulletins, Chairs and speakers Infos, Zoom connection links, Breakout Rooms, and Committees. The main content area contains a message about the postponement of the in-person conference to 2021, a Twitter handle (@HiggsConference), and detailed descriptions of the conference's focus on Higgs boson parameters and decays. It also provides Zoom connection details for plenary and parallel sessions.

Due to the ongoing Covid-19 pandemic the in-person Higgs conference at Stony Brook/BNL is postponed to 2021. Nevertheless, Higgs 2020 will proceed online this year.

Follow us on Twitter: @HiggsConference

Higgs 2020 (former Higgs Couplings) is this year's installment of an annual conference devoted to new experimental and theoretical results on the Higgs boson. The 2020 conference will present the latest results from the LHC on the Higgs boson mass, spin/parity, and couplings and will present new theoretical work devoted to the measurement of Higgs parameters and possibilities for exotic Higgs decays. The conference will provide an opportunity for critical discussion of the current strategies for studying the Higgs boson at the LHC and the next steps beyond the LHC. Higgs 2020 will include several sessions of parallel contributions on current research topics.

How to get Indico?

-  **Option 1: run it yourself**
 - **Pros:** full control, data sovereignty/privacy, cheap (if you have internal IT know-how)
 - **Cons:** may become expensive if there is no know-how
-  **Option 2: get someone to run it on your own infrastructure**
 - **Pros:** full control, data sovereignty/privacy, cheap (if you have your own IT infrastructure)
 - **Cons:** you still need to have your own IT infrastructure
-  **Option 3: get someone to host/run it for you (cloud)**
 - **Pros:** most likely cheaper than running your own IT
 - **Cons:** data sovereignty/privacy

Some known providers

- Mythic Beasts
- S2Innovation
- unconventional.dev (CERN spin-off)

Governance

- Clear **Governance Policy** with **roles and bodies**
- Regular workshops and community events
- **Consultative board:** CERN, UN and MPP
- "**Making Indico better for us and everyone else**" e.g. accessibility work by UN

	Contribution	Influence
Indico Community	Voluntary	Ideas and suggestions
Participating Organizations	Significant	Presence in community meetings, a say in community resource allocation
Consultative Board	Particularly relevant	Approve roadmap and steer general Project development

<https://github.com/indico/governance>

What is JACoW?

What is JACoW? (our POV)

What is JACoW? (our POV)

Past year's progress

- We went to IPAC24

Duarte Galvão, Michel Succar - IT-CA-CTE (CERN)

Past year's progress

- We went to IPAC24
 - and we took notes!

Type	Problem	Priority	Solution
New feature	A restricted group of people need to be able to edit the contributions' titles and author lists. However, the only way to allow this is to give them full management access to the whole event, which is confusing for them and can be dangerous.	Low	A new permission type that only allows managing contributions.
New feature	The label for the "internal" setting in comments is "Restrict visibility of this comment to other editors", which caused some confusion regarding whether this means that comments are visible only to other editors or not.	Low	Change the label text to something such as "Restrict visibility of this comment to other editors only".
New feature	On the contribution page, there is a "go to timeline" button that links to its corresponding Editing Timeline. However, this button is only shown the contribution's submitters, meaning that managers and editors need to manually search the editable list to find the corresponding timeline.	Low	Show the button to everyone who has the "can_see_timeline" permission.
New feature	The error messages in the revision files upload form are very discrete - a white box with a red/orange icon. This causes confusion in both submitters and editors, as they often can't tell what's wrong when trying to make a revision.	Medium	Make the error boxes more prominent. Preferably fully red.
Bug	When searching on the "Get Next Editable" dialog, the search results are highlighted but they are not pushed to the top, forcing editors to scroll through hundreds/thousands of editables to find the scattered ones.	Medium	Change display order of editables when applying a search filter.
Bug	When applying a filter on an editable list for papers, it also shows up in the editable list for posters, even though it might not make sense.	Medium	Add an editable type and event id to the session storage key for the filter.
New feature	It is necessary to freeze certain information, namely the contribution's description and title, in order to properly conduct the editing process. However, it is still useful to allow submitters to fix the state.	Medium	Provide more options in the "Submitter Privileges" dialog to enable/disable title, description and persons.
Bug	When doing a Fail QA action (reset_editable) on an editable that has gone from "Needs Submitter Confirmation" to "Approved", only the last revision is undone, and although the editable goes into "ready for review", the actions don't reflect this state, and is instead waiting for submitter confirmation.	High	Ideally no revisions should be undone. An editable should simply be forced on review. We need to check the editable's state rather than the last revision's state to know which actions can be performed.
New feature	The current way to upload files and approve a revision is to do a "Request Approval" action (marked with a yellow dot) and then, on the confirm button, open a dropdown and select "Confirm and Approve". This creates confusion, since the intended action is to approve and not to request approval. Many editors forget the final "Confirm and Approve" step, and since they cannot judge revisions in the "Needs Submitter Confirmation" (yellow) stage, they have to undo and redo the whole revision, which often means reuploading.	High	Allow uploading files when performing "Approve" judgment, similar to the "Request Changes". This action should create a single "approval" revision containing the files.
New feature	After a revision is made by an editor, it sometimes might be necessary to fix the list of tags. Currently, it is only possible to edit the revision text.	Low	Let the editor edit the tags as well as the revision text.
New feature	There are plans to use an external service to provide mailing lists functionality for JACoW conferences. However, Indico does not support any such integrations.	Low	Display the mailing list preferences dashboard, with information coming from the provider's API. Additionally, display in the conferences' registration form.

Contributions permission

UI/UX improvements

Improvements on Reviewing

- Judge button on editing revisions
- Switching between actions on the editing timeline erases comment
- Green-dot with new files

More transparency on QA Fails

The screenshot shows a sequence of events in a digital workspace:

- Event 1:** Duarte Galvão (editor) has accepted this revision · May 29, 2024 4:21 PM. A red circular icon with a white 'D' is on the left. A green 'Hide' button is on the right.
- Event 2:** QA03: QA Failed (red button) and T2: Tag 2 (green button).
- Event 3:** Indico System left a comment 🛡 · May 29, 2024 4:21 PM. A grey circular icon with a robot head is on the left. The comment text is: This revision has failed QA.
- Event 4:** This editable's state has been reset · May 29, 2024 4:21 PM. A grey circular icon with a robot head is on the left.
- Event 5:** QA03: QA Failed (red button) and T2: Tag 2 (green button).
- Event 6:** A red circular icon with a white 'D' is on the left. It contains a text input field with "Leave a comment..." and a blue "Judge" button with a dropdown arrow.

Multiple affiliations

The image consists of three screenshots illustrating the submission of an abstract with multiple affiliations:

- Top Left:** A screenshot of the "Submit new abstract" interface. It shows a title field containing "New idea" and an authors field. The authors field lists "Jon DOE" with the email "jdoe@cern.ch". Below the list are buttons for "Add myself" and "Add from search".
- Top Right:** A screenshot of the "Edit Affiliations" dialog. It shows two affiliation entries: "CERN" and "IST". Each entry has a red "X" button to remove it. At the bottom are "Save" and "Cancel" buttons.
- Bottom:** A screenshot showing the result of saving the multiple affiliations. The "Authors" field now displays "Jon DOE" with the email "jdoe@cern.ch (CERN, IST)".

The Future of Indico

- Greater Accessibility (a11y)
- UI Improvements and legacy code removal
 - React-based timetable
- User Interfaces
 - Improvements in material editor (e.g. better drag and drop)
 - Responsive interfaces that work OK on mobile
- More user-centric home page
- Version 2 of the REST API: granular scopes, endpoint versioning, OpenAPI support;
- More info in our roadmap (<https://getindico.io/roadmap/>)

Come to our workshop!

Date TBA; sometime in March
